Agnes, Andrew, Kevin and Don:

I would like you to participate in the **Reduction Activities** workgroup for the Sept 30 Columbia River Toxics Reduction Action Agenda workgroup meeting in Toppenish, WA. We should have a draft workplan by September 30th and distributed prior to the meeting by September 23rd. We have been talking about current and proposed toxic reduction efforts for years so I believe this is a quick work effort that can draw on work that has already been done.

Helen and Kim, let me know if you are interested in participating as well.

I would like to propose a conference call for us to talk about a workplan to be presented on September 30th. After our conference call, I will put together our proposed workplan for distribution according to process and format that Mike has provided below.

Here is an outline that we could use as a starting point:

Expand Toxic Reduction Actions

Task 1 - Description: Use existing regulatory authorities

Outcome: Reduce toxics in the Columbia River Basin

- EPA Partnerships
- TMDL Implementation/WA Toxics TMDLs
- PCBs/Dams/TSCA
- Water Quality Standards (ODEQ)/NPDES

Task 2 - Description: Voluntary, Non-regulatory Programs

Outcome: Reduce toxics in the Columbia River Basin

- Pesticide Stewardship Partnerships
- Sediment BMPs
- Pollution Prevention Measures

Here are some proposed times for our conversation. Let me know if any of these work for you.

Mon., Sept 15, 3:30 - 4:30 pm

Wed., Sept 17, 10 - 11 am

Wed., Sept 17 11- 11:45am

Thurs., Sept 18 2 -3pm

Thurs., Sept 18 3- 4pm

Thanks, ml
